DESCRIPTORS	Educational Programs; Elementary Secondary Education; *Extended School Year; *National Surveys; Program Descriptions; School Districts; School Schedules; State Departments of Education; *Tables (Data); *Year Round Schools

ABSTRACT

The data in this survey was compiled from information provided by state education agencies and school districts across the country. Tables include data, arranged according to state, on the number of students in operational year-round or extended school year education programs, the types of programs, grade levels involved, purposes of programs, effects on teacher contracts, curriculum changes, program evaluation, and funding sources. Addresses and names of superintendents of districts utilizing some form of year-round education are also included. (DS)

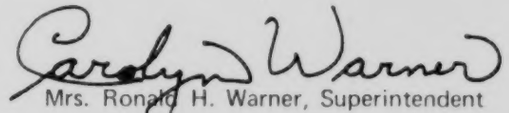
FOREWORD

We are pleased to share this information on the national level concerning Extended School Year operations. This survey was compiled in cooperation with the National Council on Year Round Education to continue the previous surveys so ably conducted by Dr. Bruce Campbell, former director for Extended School Year Programs, New Jersey Department of Education, Trenton, New Jersey.

The combined efforts of those involved in the National Council on Year Round Education, state agencies throughout the Nation, and individual school districts will continue to foster and encourage the study of year round education as a vehicle to improve the Nation's educational programs.



Mrs. Ronald H. Warner, Superintendent
Arizona Department of Education

Information for 4th Annual Survey of State Agencies 10-71

PREFACE

Tables I through XI of this survey summarize the latest reports of year round education activities as supplied by state agencies and outlying school districts.

We all know that problems of obsolescence are constant but every effort has been made to develop a timely and useful document.

To Hadley A. Thomas, Associate Superintendent, Arizona Department of Education, goes a special thanks for his encouragement and support of the Year Round School Information Service since the enabling legislation was passed in 1972. Further acknowledgments must be extended to all those who assisted in gathering information of this magnitude. It is sincerely hoped that school patrons, administrators, and teachers will find the information helpful.

Rosemary Nelson
Extended School Year Project Officer
